Installation steps

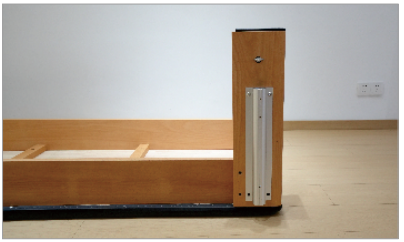

Note:
The images in the following installation steps are for illustration purposes only and are intended to demonstrate the installation method and process.
The actual product may differ slightly in appearance or details.
Please refer to the product you have actually purchased.

1. Open the package and take out the corresponding parts.

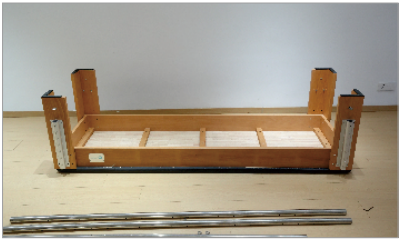

2. Turn the Main Bed Platform ① over to install the Support Legs ②.

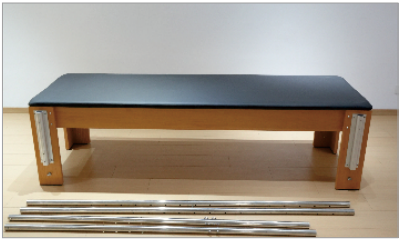

3. Align the Support Legs ② with the corresponding holes as shown.

4. Tighten the screws to secure the Support Legs ②.

5. Then install the remaining Support Legs ② one by one.

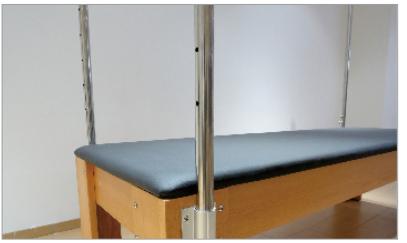

6. After installing the Support Legs ②, turn the Main Bed Platform ① back over and place it upright.

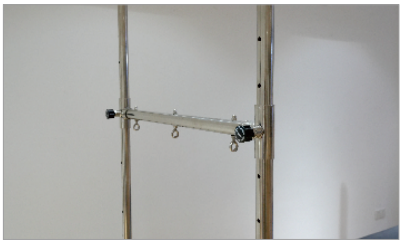

Installation steps

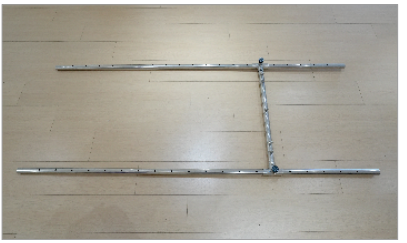

7. Insert the Right Vertical Pole ⑤.

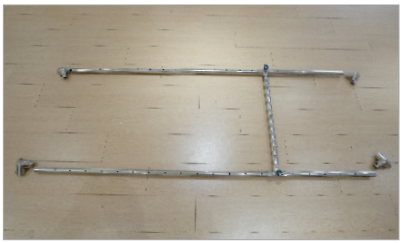

8. Insert the Left Vertical Pole ④.

9. Insert the Left Height-Adjustable Side Bar ⑪.

10. Assemble the top frame and insert the Adjustable Top Horizontal Bar ⑩.

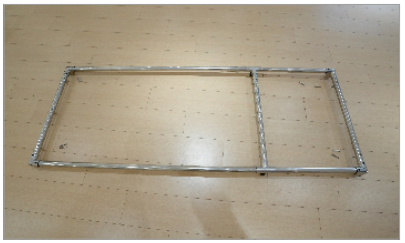

11. Prepare to install the 3D Three-Way Connectors ⑦.

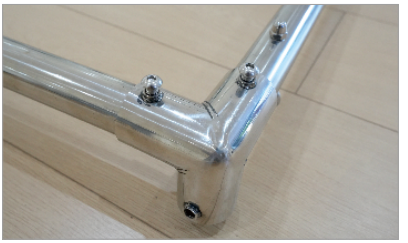

12. Install the 3D Three-Way Connectors ⑦ as shown.

Installation steps

13. Install the Left Short Bar ⑧ and the Right Short Bar ⑨ on the top tower frame.

14. Tighten the two screws on the top tower frame.

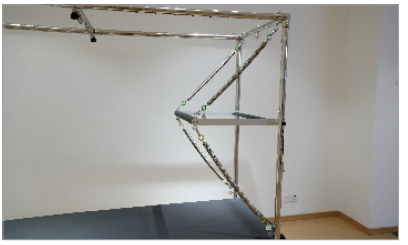

15. Connect the top tower frame to the Vertical Poles.

16. Tighten the screws to secure the top tower frame.

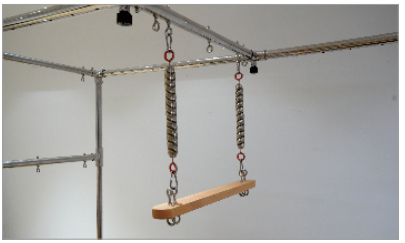

17. Install the U-Shaped Frame ⑰.

18. Attach the Springs No. 1⑭ to the right frame.

Installation steps

19. Install the Trapeze Bar using Springs No. 3 ⑫ and the Top Push-Through Bar ⑯.

20. Attach the Foot Strap ㉑.

21. Hang the Left Wooden Bar ⑮.

22. Hang the Side Fuzzy Loops ⑲.

23. Install the Footplate ③.

24. Hang the Safety Strap ⑳.

Installation steps

25. Hang the Upper Fuzzy Loops ⑱.

26. The assembly is complete.

Maintenance instructions

Avoid scratching the surface with hard objects, and ensure that cleaning tools do not bump against the equipment during use. Also make sure that hard metal products or other sharp objects do not collide with the surface, in order to prevent dents, scratches, and similar damage.

The product should not be stored in a very humid environment. It is strictly prohibited to store it together with chemical substances or wet items. If the product comes into contact with water, please dry it promptly.

Disposal Instructions

Thank you for choosing our product. To ensure that the product is properly disposed of at the end of its lifecycle, please follow the disposal guidelines below:

Environmental Disposal:
This product is made from environmentally friendly materials (such as beech wood and non-harmful synthetic materials) and complies with EU environmental protection standards. Please dispose of it according to local recycling and waste management regulations.

Wooden Parts:
The beech wood parts can be sent to specialized wood recycling centers or forest restoration projects to ensure the resources are reused. Please avoid discarding them in regular trash.

Non-Wooden Parts:
The metals, plastics, fabrics, and other materials in the product should be handed over to specialized waste recycling centers separately. Please ensure these components are sorted for recycling according to their material categories.

Disassembly and Cleaning:
Before disposing of the product, please ensure that all removable parts have been taken apart for more efficient material recycling. During disassembly, take care to avoid damaging or injuring other components.

Compliance with Local Laws and Regulations:
Please ensure that the disposal follows the waste management laws and regulations in your area to prevent environmental pollution and resource wastage.

Disclaimer

The information contained in this manual is for reference only. Due to the manufacturer's ongoing research and development programs, the products described above may be subject to change without prior notice.

We shall not be liable for any direct or indirect, incidental or special damages, losses, or costs resulting from this manual or the products contained within it.
